Dear Valued Supplier,

Revere values the partnership built between our companies and anticipates continued growth. Payment terms are an important part of our working capital management strategy. To balance terms throughout the value chain, we are writing to inform you of a payment term change. We feel this will provide equal and fair conditions between Revere, and our suppliers, customers, and competitors alike. We are optimistic that as a valued partner of ours, you will be supportive of our request. If you have concerns regarding this, please let us know and we can arrange for a call to discuss further.

As we explored options to offer our suppliers a flexible and scalable option to manage their cash flow, we partnered with eCapital, a leading supply chain finance provider, to establish an early payment program for you.

The program, called eCapital FastTrack will provide the option to receive early payment of approved invoices. You can improve your cash flow at rates often lower than other working capital solutions for a nominal fee. The program is completely flexible; you control which invoices to select for early payment, and once enrolled, you can also opt-in for all future invoices to be paid early automatically once they are approved.

While enrollment is required for invoice payment, requesting early payment is entirely optional. We encourage you to look at the many benefits the eCapital FastTrack program provides:

- **Improved Visibility:** Get real-time information and visibility on outstanding invoices, regardless of if you select early payment or not.
- **Supplier Success Team:** You now have direct access to eCapital's Supplier Success team to answer any questions you have on payments.
- **No Obligation or Enrollment Fee:** There is no fee to enroll or for usage, and no obligation to request early payment.
- **Faster Payments:** Bypass payment terms and access cash 1–2 business days after invoice approval.
- **Manage Cash Flow:** Control when you get paid, allowing for flexible forecasting and growth.
- **Lower Financing Costs:** Lower priced than most forms of financing, without adding debt.
- **Decaying Rate:** If you request early payment, you have control of your fee based on the number of days early payment.
- **Reduced Risk:** Early payments eliminate the risk of future non-payments.
- **Stronger Financials:** Improve your balance sheet and other financial metrics.
